

Immediate Burial

"Price for FCAP members" includes the cost of a minimum container.

If you are not a member (join!) or if there is no member price listed, the cost for the casket will be additional.

Refrigeration is required if not embalmed or buried after 48 hours.

IMMEDIATE BURIAL: This is a very simple arrangement with no embalming and no viewing. You can keep the body home for up to 48 hours to say goodbye. The funeral director will come when you're ready and arrange for the burial. You can have a memorial service or party when you want, without time pressure, and in any location (religious, restaurant, club, home). Since you don't need to visit the funeral home, remember that location is not a factor and you can choose based primarily on price. Many funeral homes will allow you to add a Graveside Service to this package if you want to be present for the burial. In that case you might want to use an upgraded casket. You can make one or buy a kit, you can purchase from a funeral home, Wal-Mart, Costco or online at a significant discount. **Included:** The funeral director will pick up the body, obtain necessary permits, file the death certificate, and arrange for interment at a designated cemetery, and assist with social security and veterans benefits. The casket included is usually cloth covered or metal and burial is private and will occur within 48 hours of death (if not embalmed or refrigerated). The following, if requested/required, may incur **additional cost:** Travel outside local area, upgraded casket, embalming, viewing, funeral service, graveside service, vault or grave liner (if required by the cemetery), etc. Cash advance items that incur additional cost: Cemetery plot or mausoleum space and opening and closing fees (charged by the cemetery), headstone or marker (charged by the monument maker), obituary (if charged by the newspaper), death certificates and permit fees (charged by the state), etc.

* After 48 hours
